Product : 1000mg (11.1%) Premium Cannabis Oil
Quantity: 10ml
Report issue date: 26/10/2018
Batch: 0810
Expiry date: 10/2020

main cannabinoids

CBDA	CBD	CBN	THC	THCA
ND	11.9135 %	ND	ND	ND

other cannabinoids

CBG	THCV	CBC	CBL
ND	ND	ND	ND

HPLC analysis carried out strictly following the
"Recommended methods for the identification and analysis of cannabis and cannabis products"
by United Nations Office on Drug and Crime

P. Penchev, PhD chemical engineer
Head of production

Ervin Ivanov, M.D., PhD cand.

HPLC chromatogram

no.0810

HPLC controlled substances analysis carried out strictly following the "Recommended methods for the identification and analysis of cannabis and cannabis products" by United Nations Office on Drug and Crime

NB: The HPLC methods we use are specifically designed to test PBG Laboratories' production extracts with hemp's specific compound matrix. As such, any added solvent or carrier agent such as MCT, hemp seed oil or other will introduce their own compound matrixes that sometimes interfere with the results. Our analytical laboratory specialists warn that they can detect anomalies in the chromatograms with the introduction of such unidentifiable with our methods compounds!
